Serengeti National Park - Chem Chem Wildlife Reserve /Tarangire

Day 01: Kilimanjaro Airport – Serengeti National Park

On arrival at Kilimanjaro Airport, you are met by a representative of the airline for your onward scheduled flight to the Serengeti. Songa Tented Camp is located in the northern part of the Serengeti near the Mara River. You have a good chance of observing the Great Migration of wildebeest and zebra during the months from about July to September and with a bit of luck, you may even witness a spectacular Mara River crossing during that season. Nevertheless, the Great Migration is a natural phenomenon, which depends on various factors, such as the rain. Therefore, the sighting of the migration could never be guaranteed and should be considered as the 'cherry on the cake'. Game viewing is usually great in this area throughout the year. In the afternoon you can already enjoy a game drive in this impressive natural environment. Songa Tented Camp L,D

Day 02 & 03: Serengeti National Park

You spend 2 wonderful safari days, which surely bring a kind of nostalgic safari feeling. Classic game drives in open safari vehicles and with a professional private guide take place in the early mornings and late afternoons. Of course, a full day excursion with a picnic lunch could also be arranged with your hosts, should you prefer. Simply enjoy pure safari feeling and a great authentic safari feeling at your tented camp, which offers all the comfort and style. 2x Songa Tented Camp B,L,D

This area is also located within the 'migration corridor' between Tarangire National Park and Lake Manyara National Park.
